Black Bird Image Optimizer

ADVANCED OPTIMIZATION BATCH OPTIMIZATION

High Optimization

Before Optimization: 685 KB (1920x1200)

Ultra Optimization: 92,0 KB (1920x1200)

Black Bird Image Optimizer is one of the best tools to optimize images, as you can see in this sample. The quality is well preserved and reduction is usually 744% of the original size. Unlike other image optimizers, Black Bird Image Optimizer does some transformations and then chooses the best colortype for this image.

Color quantization reduces the number of colors in an image while maintaining its overall visual construction. Depending on the file type, this can dramatically reduce the file size of the image. Black Bird Image Optimizer does trials to find the best colortype for a PNG file. At the beginning of this process, it should transform the RGB area that let it to choose the optimal colortype with more precision.
