Street Fighter 4 Wii Probably won't happen After the 16-bit era, Nintendo systems have always had a shortage of good fighting games.. The follow-up to the critically acclaimed Super Street Fighter® IV will further redefine the fighting game genre with classic 2D Street Fighter fighting action, a host of new and returning characters, beefed up online modes, and more.

But the producer has already gone on record of saying he won't If I recall the few month old interview correctly, he said how he wanted Street Fighter to be 100% accessible/playable to everyone who picked up the controller for the first time.. With all the different control types and set ups with the Wii, he couldn't guarantee that set up for everyone, so he chose to just skip SF4 on the Wii outright..
